## WHAT IS THE SLIDING FEE PROGRAM?

The Sliding Fee Program at Southern West Virginia Health System offers the opportunity for our established patients to receive discounted healthcare services within our network of Health Centers.

The program is not designed to offset the cost of any medical tests or procedures for patients receiving their primary care from outside of our Health Center network.

## WHO IS ELIGIBLE FOR SLIDING FEES?

Any family or individual whose income meets financial guidelines is eligible for this discount.

## WHAT IS THE APPLICATION PROCESS?

To apply for this program, visit any Southern West Virginia Health System office. Staff members at the front desk can help you with the application process.

## WHAT IS MY FINANCIAL RESPONSIBILITY?

You are expected to pay at least the cost of your office visit at the time of service. If you fail to do so, you will lose your discount and pay full price. Please refer to the chart in the right-hand panel of this brochure for cost information.
